

## Changes made to RFP documents after initial RFP

This RFP is a rerun of an RFP NRK cancelled previously (MA3253-19E). This document lists alterations, removals and additions made to documents for this RFP round, relative to documents that were part of the first RFP.

### Disclaimer

This document is provided as a convenience only. This changelog is not exhaustive, and omissions may occur.

### Document names

Documents that are part of the tender are now prefixed with “Attachment X”, to better differentiate them from Appendices in the documents themselves.

## Changes made to Tender document

### Section 1.2 “Tender purpose and scope”

- Initial paragraph expanded with more information, key numbers and examples about content production at NRK, as it pertains to the RFP.
- Subsection “Key requirements” was integrated into of the initial 1.2 text.
- Subsection “Evaluation” removed. Evaluation criteria is now described in full in section 6.3.
- Subsection “Long term adoption” renamed to “Developer experience and adoption” and reworded.
- Other minor modifications should be expected.

### Section 3.3 “Economic and financial position”

- Qualification requirements changed to match the Norwegian description in the original RFP and to reflect the general practices at NRK.

### Section 5.1 “Pre-qualifications content and structure”

- Added: NRK will assess system documentation available online on vendor websites to form an opinion as part of the prequalification.

### Section 6.3 “Award criteria”

- Rewritten in full to provide clarity into how NRK will evaluate the qualified CMSs.

### Other changes to the Tender document

- 1.7 - Lists all attachments that are part of the tender.
- 3.5 - Now references Section 1.2 and in Attachment 1.

## Changes made to document Headless CMS RFP - Appendix I (now called Attachment 1 – Requirement specification)

Appendix I was renamed to Attachment 1 – Requirement Specification to avoid naming conflict with Apprentices in SSA documents.

- Added missing text to 1.1.4.
- Expanded explanation in points 5.8.1-5.8.4.
- Added documentation requirement 9 and moved security requirements from 9 to 10.
- **Must have** requirement 8.1.2 changed from 50 to 100 active user accounts.
- Increased nice to have requirement 8.1.3 for user accounts from 1500 to 6000.
- **Must have** requirement 8.1.1 now reads “Service Level Agreement uptime of 99,9% or better “
- Added **must have** requirement 8.1.9 and 8.1.10 pertaining to response times for error levels A and B.

## Changes made to SSA-K & SSA-D appendices

Marked in blue, directly in the documents.

Take extra note of the following addition:

### *2.1.2.2 Detailed plan for the establishment phase*

NRK will start using the deliverable as soon as the contract is signed and does not expect an establishment phase.
