

Deviations from the tender documentation

The contractor shall specify any deviations from the tender documentation/procurement documents in this document. Deviations must appear in this document in order to be invoked by the contractor. The contractor must however be aware that also other deviations from the tender documentation than those specified below, may result in a rejection of the tender according to The Public Procurement Regulation chapter 24.

The specification of deviations must refer clearly to the relevant annex/appendix and clause in the tender documentation. The contractor must specify clearly the consequences of such deviations for the service, price and/or other circumstances in the tender.

All deviations from the tender documentation shall be specified below:

Reference in the tender documentation	Original wording	Basis for reservations/deviations	New wording	Consequence

The table may be extended by adding more rows if necessary.
